FRED M. PETTENGILL,
JOHN H. ROBINSON,

Trustees.

This is to certify that we have examined the accounts of the trustees of trust funds and find the same correctly cast and properly vouched, and a balance of trust funds legally invested and in their control of four thousand, three hundred, seventy-six dollars and twenty-eight cents (\$4,376.28).

JOSEPH A. RAINVILLE,
HARRY K. ROGERS,

Auditors.

SUPERINTENDENT'S REPORT.

(School Board Report.)

To the School Board of the School District of Pembroke:

I herewith submit my sixth annual report as superintendent of the schools of Pembroke.

The year last past, serious in its events, amazed by its problems, overshadowed by a world war, has disturbed our civic life and all the enterprises in which our people are

engaged more severely than any period since the war for the Union. And unquestionably the schools have felt this disturbance as much and perhaps more than any American institution.

The great advance in the cost of living, in its every detail and the higher wages paid in other enterprises caused so many women to leave the profession of teaching that it made it difficult to secure teachers to fill the vacancies thus caused. In some states schools were closed owing to a lack of teachers.

The widespread epidemic of influenza closed the schools for a period, causing further disturbance in the continuous work of the schools. Considering the above hindrances our schools have accomplished as much work and have made as great progress as could be reasonably expected.

Educational Reforms.

Educational reforms have followed many of the great wars of history and today as never before the problems of education are being discussed by the legislative bodies of all civilized countries.

In many of the states of the United States there is an educational agitation and an apparent strong public conviction that educational institutions ought to be developed under state and federal guidance rather than to remain under isolated local administration.

In accordance with the proclamation of Governor John H. Bartlett the legislation which is planned for the consideration of the present legislature has to do with the equalization of school opportunities. This would require a minimum school year of thirty-six weeks, certified teachers, universal supervision, medical inspection and school nurses for all schools, night schools for teaching the English language to illiterate foreigners as an Americanization measure, and the development of technical courses in high schools.

The need of enactment of the above into the laws of our state is apparent to all those whose minds have been awakened to the new conditions to which the world must adjust itself.

Americanisation.

The need for an evening school for teaching English to illiterate foreigners is urgent and I ask your aid for supporting such a school.

In his report, speaking of the importance of these schools Secretary Lane says: "There is no one thing so supremely essential to a government such as ours where decisions of such importance must be made by public opinion, as that every man and woman and child shall know one tongue, that each may speak to every other and that all may be informed."

"Back-to-School" Drive.

The burdens imposed upon the schools by the war have practically ceased and now comes the national slogan "Back-to-School."

Back to school is a watchword which appeals to citizens in all enterprises and in all walks of life; to school officers that they should provide the best school privileges, the best is none too good; to the citizens that they should furnish means for this work; to parents for the regular and punctual attendance of their children at school.

I strongly advise parents to encourage their boys and girls to complete a secondary school course. The dollars and cents value of this education, which is by no means as important as the civic and ethical value, should not be overlooked.

Parents and Citizens.

We solicit the parents and citizens to visit the schools frequently to get first hand knowledge of the work done in the schools. We also ask your assistance in remedying hindrances to school work such as truancy, irregular attendance, tardiness and dismissals. We would appreciate suggestions for improvements in any direction that would lend aid in developing a strong and wholesome manhood and womanhood in our pupils.

I again recommend that each schoolhouse should receive the utmost care in providing the best facilities for health, comfort and beauty. I am of the opinion that it is better to repair thoroughly two buildings each year than to scatter the money on minor repairs on all the buildings.

The spirit of coöperation between the teachers and between teacher and pupil is excellent. The morale of the schools is steadily improving.

Respectfully submitted,

HENRY S. ROBERTS,

Superintendent.

Fred W. Saltmarsh.

Henry S. Roberts, Superintendent.

REPORT OF SCHOOL BOARD.

It has been the custom of the state department in previous years to notify school boards and superintendents on or about February 1 of the amount of money required by law for schools, and the amount to raise entitling districts to state aid.

There is a bill at the present time before the committee on education in the House of Representatives which reorganizes the whole system of raising school money and apportionment of state aid. We therefore are unable at this writing to present the budget for the ensuing year.

GENERAL FUNDS ACCOUNT.

For the School Year ending August 31, 1918.

Current Revenue.

From state for:

| | |
|-------------------------------|----------|
